Child Sponsorship & Community

Empowering orphans and vulnerable children at Acres of Hope Uganda

July 2020

Please enjoy this short video in lieu of a July newsletter.

<https://youtu.be/z6gE22kRdl0>

Know that your love and generosity toward Acres of Hope Uganda during this pandemic are both greatly appreciated and vitally important. Pastor Geoffrey and the AOHU staff are working diligently to care for the children we have all come to love. Thanks to your generosity last month, AOHU fed our 250 sponsored children plus approximately 2,300 additional family and community members. These are all people who would have been at risk of severe hunger.

AOHU is also working hard to get education materials to the children as the materials are made available by the Ministry of Education. Most think the government will not reopen schools until the 2021 academic year which begins in February. Until then, everyone is doing their best to continue learning!

If you would like to contribute to our Covid Relief Fund, please visit our website: AOHI.org. Every dollar will make a huge difference.

Thank you to our friends at eMite.org for this awesome video that beautifully tells the AOHU story.
