

Child Sponsorship & Community Development

Empowering orphans and vulnerable children
at Acres of Hope Uganda

May 2021

DRUM ROLL PLEASE.....

Acres of Hope Primary School is now officially certified by the Ministry of Education as a private educational institution in Uganda! Pastor Geoffrey and the AOHI staff have persevered through many bumps in the road, the greatest of which was Covid 19. But through hard work, dedication, your financial generosity and so many prayers being offered up from Nebbi and from each of you here in the States, it is finally, miraculously official! Please visit <https://www.facebook.com/odongo.keronga> to offer your congratulations and best wishes!

WHO IS WHERE?

Wondering where your sponsored child is now? Here is an update: Acres of Hope is currently filled with the excited and curious minds of our Primary Grades 4, 5 and 6. Please pray for them to regain lost ground and to once again flourish with their love of learning and time together! And always remember to pray for the teachers as well. They have risen to an unforeseen challenge with hard work, flexibility and love for their students!

A FIRST!

We have 4 students graduating Secondary school this year and looking towards moving on to our version of college! This is a momentous occasion for Acres of Hope! Our June newsletter will focus on these 4 students so that you can get to know them!

We now have a University Tuition Fund to help. University fees are well beyond the normal sponsorship amount so we will need additional funds to prepare these students for their bright futures. If you would like to make a one-time or a recurring gift to this fund, please visit: <https://aohi.reachapp.co/projects/post-secondary-tuition-fund>

WHAT IS NEXT?

Many of our former AOH Primary students are now in Secondary school, our version of boarding school for middle and high school. Currently Secondary Grades 1 and 3 are in session.

As you can imagine, the cost to support our Secondary students is significantly higher than that of our Primary students. However, this next step is crucial in developing students for careers requiring higher education. Any one time or ongoing donations to our high school student fund ensures these students can continue to pursue their education and development towards becoming productive members of their communities!

If you would like to make a one-time or a recurring gift to this fund, please visit: <https://aohi.reachapp.co/projects/high-school-fund>
