

Child Sponsorship & Community Development

Empowering orphans and vulnerable children  
at Acres of Hope Uganda

April 2021

## Happy Easter at Acres of Hope! New Opportunities Abound!

April is a busy month at Acres of Hope! This is the month that brings the majority of students back to the classroom to begin onsite learning. Primary 4 and 5 return April 6th and Secondary 1 and 2 return mid to late April. In addition, Primary 7 will sit for year end exams this month. Please be in prayer for all students as they take these important tests determining their next opportunities.

Finishing touches are evident in the new school building. The paint job should be finished by the end of this month (note the Acres of Hope colors being used!) and windows and tile are being installed as well. The students and teachers are bursting with pride and excitement to begin learning in such a wonderful space!

## Upcoming Sponsorship Campaign

A big thank you to Williamson's Chapel UMC for agreeing to host a sponsorship event on May 16 and 23. This is an opportunity for us to share the life transforming stories happening at AOH due to YOUR sponsorship! We need others to join in this effort. If you have a friend or family member who may be feeling a nudge to sponsor, please send them this link to learn more. <https://aohi.reachapp.co/sponsorships>

## Covid Vaccine

Vaccine roll-out in Uganda has been sparse and sputtering but Pastor Geoffrey is hopeful and optimistic that teachers will all be vaccinated soon. Of course this gives us hope that we may soon reunite with our friends and loved ones at AOH who we have not seen in over a year! Be on the look out for missional travel opportunities as soon as they are available!

Happy Easter  
to all of you!  
May the  
resurrection  
of Jesus the  
Christ fill you  
with love and  
joy  
overflowing!
